Thank you. Please submit this form securely to cinsw-hcr@health.nsw.gov.au or post to Locked Bag 2011, St Leonards NSW 1590.

Submit

Section 4 – Verification

This section provides cancer verification details for the Patient named in Section 1.

Please note, the NSW Cancer Registry is unable to provide any information about Squamous Cell Carcinomas of the skin, Basal Cell Carcinomas, benign tumours, tumours of uncertain behaviours, or in-situ cancers (with the exception of breast and melanoma) as these data are not notifiable under the Public Health Act.

If a patient is not found on the registry this should not be viewed as a lack of a cancer diagnosis, but could be due to a number of other reasons. For example, cancer registration may have been made interstate; the notification may not have been received by the registry; or the patient may have been diagnosed before cancer notifications became mandatory (data for NSW is available from 1972, while data for the ACT is available from 1994).

Outcome of verification

Comments

Patient found (see case details below).

Patient not found on NSW Cancer Registry.

Not processed (see comments).
